Modal verbs can express multiple states and intentions. Some of them have different meanings depending on a situation. For example, we can use the verb 'can' to talk about ability, possibility, to ask for permission, to make a request or to offer help.

<u>Obligation</u>	<i>You have to drive on the left in the UK. You mustn't be late for work.</i>
<u>Deductions</u>	<i>There is someone at the door. It could / might / may be Nick, I don't know. It can't be Mary because she is on vacation.</i>

## How to use modal verbs

1. All modal verbs, except for 'ought' and 'have' require no preposition ('to') with the following verb:

- *I **can** dance.*
- *You **should** go.*
- *You **must** be careful.*
- *I **have to read** a lot to become a good student.*
- *You **ought to** observe the rules.*

2. Modal verbs in English don't add an 's' for *he/she/it*. They are always followed by the main verb in the base form:

Subject	Modal verb	Base form of the verb	Rest of the sentence
I (you, he, she, it, we, they)	<i>can</i>	<i>dance</i>	<i>very well.</i>

3. All modal verbs don't require any auxiliary verbs to form questions and negative forms. Negative statements are formed by adding 'not' after the modal verb:

- *You **should not (shouldn't)** eat so much meat - it's bad for you.*
- *Jack **can not (can't)** play tennis, but he likes playing football.*

4. Questions with modal verbs are usually formed by swapping the subject and modal verb:

- *They **should** visit Egypt.*

- **Why should they** visit *Egypt*?
- *You may come in.*
- **May I come** in?
- *Tiffany can meet her friends tonight.*
- **Can Tiffany meet** her friends tonight?
